

Female Tec students awarded scholarships to study for master's at MIT!

Karla Prieto and **Fernanda Ruiz**, graduation candidates from the [Tec's San Luis Potosí campus](#), have **won scholarships** allowing them to study for a **master's degree** in **Supply Chain Management** at the [Massachusetts Institute of Technology \(MIT\)](#).

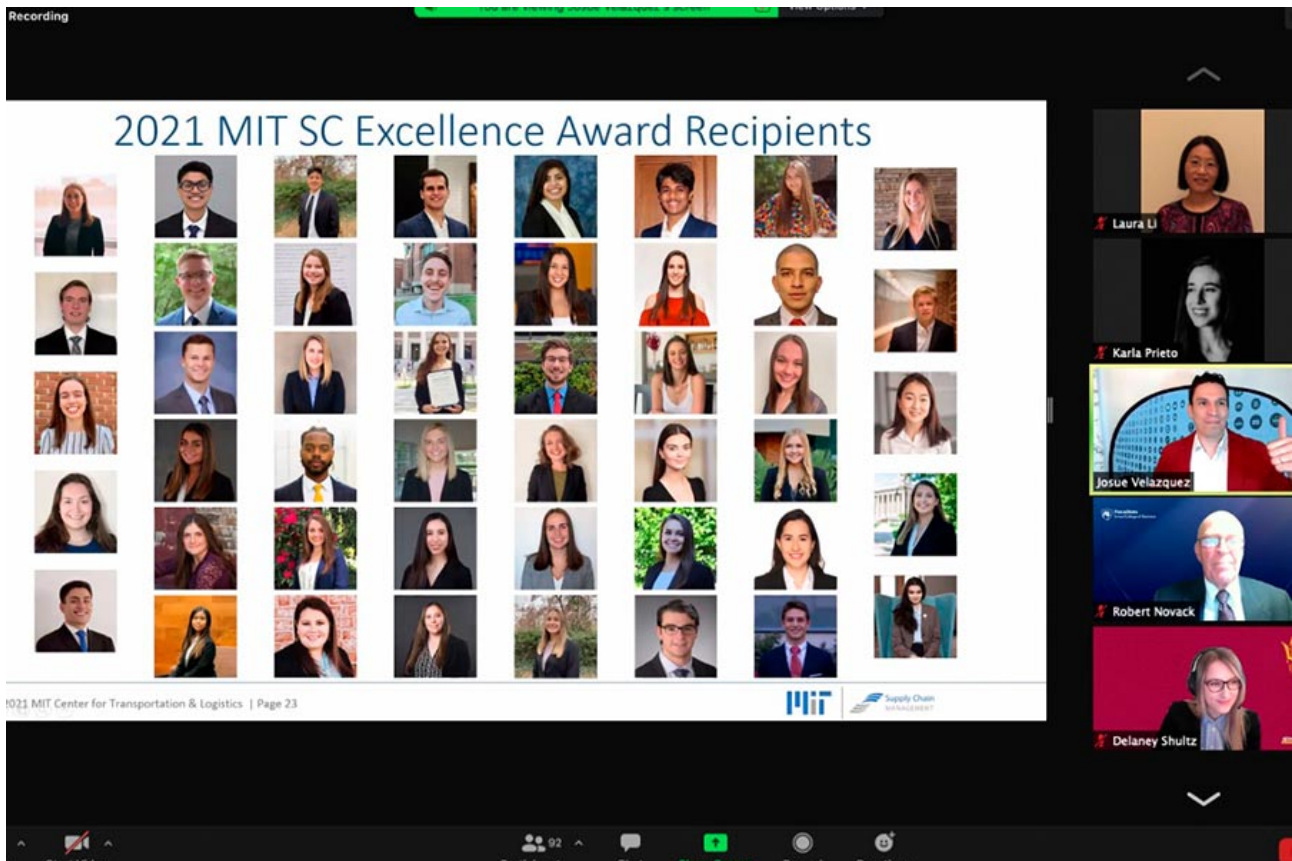

The **scholarship** provides **25,000 dollars** of **financial support** for students to be able **study** at the university or one of the **MIT Centers** around the world.

"I was very excited when they mentioned there was a scholarship like this because I'm so passionate about my studies." - Fernanda

According to the latest **QS World University Rankings**, [MIT is the best university in the world at which to study this master's degree](#), which is why it offers this kind of support for students and professionals who wish to continue studying.

Karla Prieto and **Fernanda Ruiz** participated in the **global MIT Supply Chain Excellence Awards** scholarship **competition**.

"I was very excited when they mentioned there was a scholarship like this because I'm so passionate about my studies and it will open up better professional opportunities," explained Fernanda.

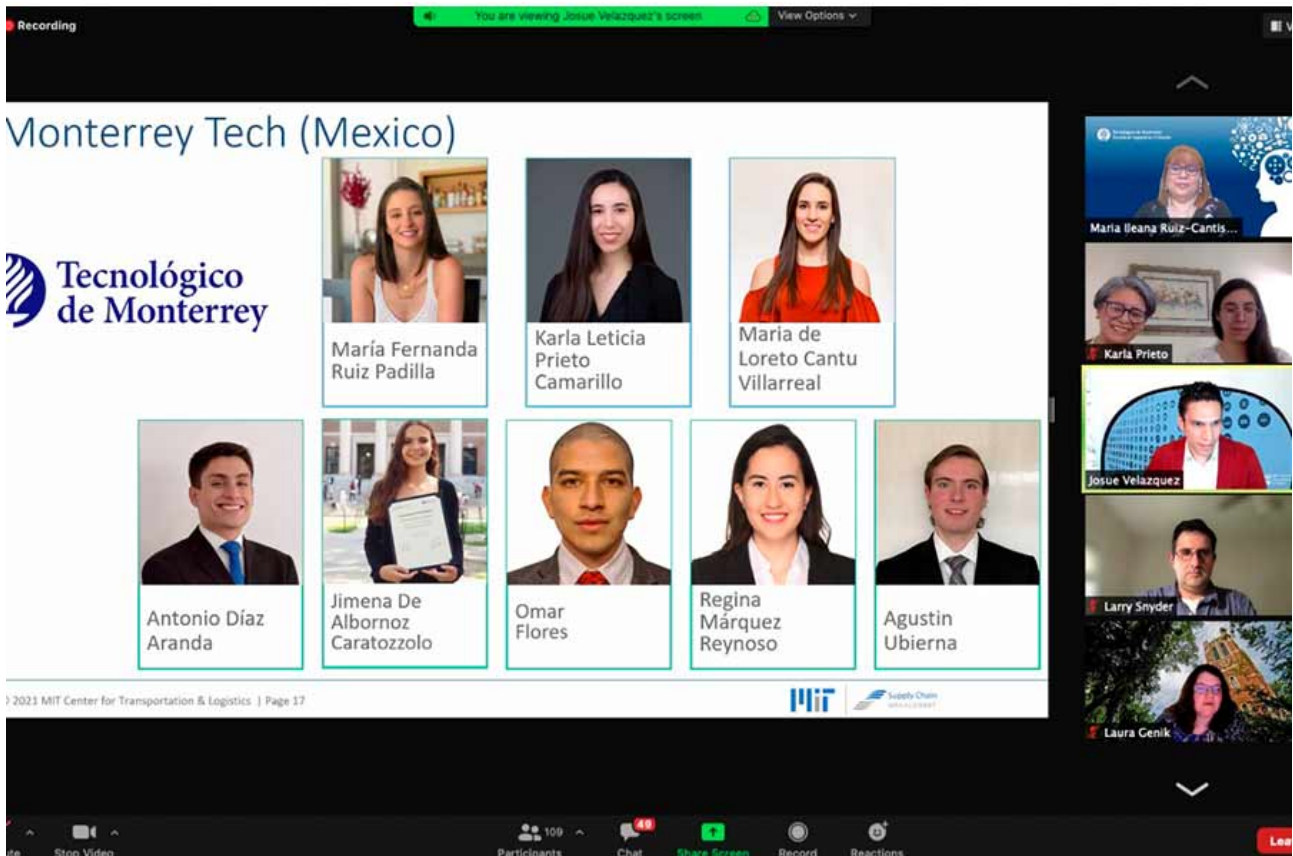

Thanks to a Tec agreement, the **Industrial and Systems Engineering** students from the **San Luis campus** will be awarded a **double scholarship**: Fernanda at the **University of Hull** and Karla at the **University of Munich**.

“At first, I doubted my abilities a lot, but I applied because of my passion and enthusiasm.”
- Karla.

*“At first, I **doubted my abilities a lot**, but I applied because of my passion and enthusiasm. When I got through the first round, I knew there was **a possibility I could win** ,” Karla remembered about the scholarship’s nomination stage.*

After going through all the stages, they received the news that they were **Award Winners**, the **highest award offered**. They can opt for a **100% scholarship** to study at a center, or a lower percentage to fulfil the dream of studying at **MIT in Boston**.

The scholarship is very difficult to win, as students from **9 renowned American universities** took part, including Texas A&M, Penn State University, and Michigan State University. **Tec de Monterrey** was the **only international university** to participate.

"I want to be able to make an impact on my country. I want to make a difference." - Fernanda.

*"I want to be able to make an **impact on my country**, on my community. I want to use all knowledge that I will gain to **make a difference**," shared **Fernanda**.*
