

Tec de Monterrey inaugurates new spaces at its offices in Peru

Tec de Monterrey has inaugurated **new spaces** at its **Peru offices** aimed at **the country's senior management community** with a new selection of **digital graduate degrees** from **EGADE Business School** and a Continuing Education portfolio.

The event was attended by **Pablo Monroy**, Ambassador of Mexico to Peru, **Brunela Baca**, Director of the Tec's Peru offices, **José Manuel Páez**, Vice Rector for Internationalization, and **Ignacio de la Vega**, Executive Vice Rector for Academic Affairs, Faculty, and Internationalization.

The **Peru offices** will have on-site spaces where **EGADE Business School's online graduate students** will have access to global opportunities, experiences, and networking as part of the Tec community.

In addition to **online Continuing Education** courses, there will be a **selection of in-person classes** in future at this site.

These facilities aim to serve organizations with **customized projects** to upskill and reskill their employees, measuring results and providing them with a high-impact model that measures their **return on investment**.

Inauguration of the new facilities

Two talks, “Mexico-Peru Relationship and Cooperation” and “Conscious Leadership to Boost Business and Society,” were given as part of the inauguration.

*“The **alliance between Mexico and Peru** has great potential for continued growth, especially now that we’re experiencing a new normal and globalization forces us to continue to innovate and transform to reach those in need,”* said Ambassador Monroy.

*“It’s very important for us to take this step towards **learning innovation and adaptation** so we can continue to train leaders capable of anticipating change and being at the **forefront of trends** in their businesses or ventures,”* said Brunela Baca, Director of the Peru office.

*“We want to continue assisting more Peruvians in to **develop their skills and competencies** to face the current challenges of the post-pandemic era together and for years to come,”* said Ignacio de la Vega.

*“That’s why we’ve created different **remote learning formats** that will bolster a **flexible digital experience** to enhance immediate application of the knowledge and skills acquired by students,”* added the vice rector.

Tec de Monterrey in Peru

The Tec de Monterrey office operates out of San Isidro and has offered **continuing education and postgraduate programs for senior management** in different business sectors in Peru over the years.

It has also contributed to the economic and social development of the country through its more than **700 graduates**.

The Tec has developed academic ties with various universities, including:

- *Peruvian University of Applied Sciences (UPC)*
- *University of the Pacific*
- *ESAN University*
- *Pontifical Catholic University of Peru*
- *University of Engineering and Technology*
- *Technological University of Peru, to name but a few.*

EGADE Business School collaborates with universities in Peru that are also members of the Latin American Council of Management Schools (CLADEA for its initials in Spanish).

The institution has also collaborated in the promotion of gender equity by leading initiatives such as the **Women in TECH Forum** and actively supporting the Women in Mining Peru association.

Finally, it has worked hand in hand with **Organization of Women in International Trade (OWIT) Peru**, a non-profit organization that brings together **women entrepreneurs, executives, and business leaders** in the country.

EGADE Business School in Peru

Students can experience the **EGADE Business School academic experience** from Peru and access all the global opportunities, experiences, and networking it offers by being part of the Tecnológico de Monterrey community.

EGADE Business School offers the following **online graduate programs**: [**EGADE MBAOnline**](#), [**Online Master in Finance**](#), [**Online Master in Business Management**](#), and [**Master in Business Analytics**](#).

It also offers full-time in-person programs in Mexico such as: [**Master in Business Management**](#) and [**Full-time MBA in Innovation & Entrepreneurship**](#).

The school also offers **Lifelong Learning refresher programs** with digital credentials that focus on new skills such as [**Global Leadership**](#), [**Women for Boards**](#), [**Management Consultancy Training**](#), and [**Strategic Digital Transformation**](#).

Continuing Education Programs

For its part, Tec de Monterrey will also offer a broad **portfolio of online graduate programs** in various disciplines, along with a wide range of Continuing Education programs, including **classroom-based, hybrid, and online programs** with new technologies such as [Learning Gate](#).

Brunela Baca pointed out that **Learning Gate** is a new “on demand” Tec platform that promotes professional growth through the development of essential competencies in an agile, flexible, and accessible manner.

Learning Gate has the following features:

- **Short modules** for students to learn precisely what they are looking for
- **Flexible learning paths** appropriate to student needs and training
- **Real-world application** of each module with assessment and feedback
- **Digital badges** for sharing achievements on social media
- **Access to articles and talks** on the latest trends
- **A forum to connect** with transformation partners.

EGADE Tec graduates experience networking in new spaces in Peru

Members of the **EGADE Business School Tec Graduate** community in **Peru** held their first in-person networking session in the new spaces at the Tecnológico de Monterrey office in Peru.

A master class on **conscious leadership** was given in the evening by **Ignacio de la Vega**, Executive Vice Rector for Academic Affairs, Faculty, and Internationalization at Tec de Monterrey.

The networking session was chaired by **María Livas**, Director of Alumni and Graduate Relations at EGADE Business School.
