12. Engineering: Civil and Structural (151-200); new
13. Communication and Journalism (201-220); new

14. Agriculture and Forestry Science (201-250; remains in the same category)
15. Law (201-250; remains in the same category)
16. Chemical Engineering (201-250; remains in the same category)
17. Environmental Sciences (351-400; remains in the same category)
18. Chemistry (351-400; last year it was 401-450)
19. Physics and Astronomy (551-600; remains in the same category)
20. Medicine (501-550; remains in the same category)
21. Biological Sciences (501-550; remains in the same category)

The Tec also improved in 3 major study areas

The Tec also climbed in 3 of the 5 major study areas evaluated by the ranking, because of the mixture of results across different disciplines.

- *In Social Sciences and Administration, it climbed 30 places, and is now ranked 56th in the world (top 100).*
- *It rose by 16 places to 129th place (top 150) in Engineering and Technology.*
- *In Arts and Humanities, the university climbed 20 places to 224th place.*

The Tec's growth in this world ranking of degrees and disciplines

The report includes **51 disciplines** across **five areas**: Arts and Humanities, Life Sciences and Medicine, Natural Sciences, Social Sciences and Administration, and Engineering and Technology.

The Tec was ranked in **34 disciplines** that met the requirements for this year's ranking, **7 more than last year** when 21 were ranked.

"It is with great pride that 21 disciplines have been included in this ranking in these unprecedented times, when education is undergoing a complete transformation.

"It's a sign that we're on the right track", said **Neil Hernández**, associate vice-rector for **Research and Technology Transfer** at Tec de Monterrey.

In addition, **Ben Sowter**, senior vice president of **QS Quacquarelli Symonds**, said that: *"Tec de Monterrey continues to improve in various disciplines. It has now established itself as one of the top 50 universities for Business and Management studies.*

This is particularly impressive given that this is one of the most competitive disciplines we evaluate in the ranking."

What does the QS World University Rankings by Subject evaluate?

The ranking takes into account **4 criteria**:

- **An *academic reputation* survey**
- **An *employer reputation* survey**
- **Research *citations* per paper**
- **The *H-Index***

The **QS** ratings takes into account a review of more than **13.9 million published articles**, **81 million citations**, and **150 thousand surveys** answered by academics and employers.

1,453 universities from **157 countries** were evaluated in this edition of the QS World University Ranking by Subject.
