

A female scientist with dark hair and glasses, wearing a white lab coat and blue gloves, is working in a laboratory. She is holding a pipette and looking intently at it. The lab coat has the name "Dra. Janira Karina Santuario" and "Instituto de Diagnóstico y Referencia Epidemiológica" printed on it. The background shows a typical laboratory setting with a white ceiling and a green emergency exit sign.

La científica que estudia el cáncer de mama a nivel molecular
